

Hope Recovery Believes:

2. Victims of trauma can become survivors and lead healthy and productive lives.
3. Survivors of trauma can overcome the ill effects of their trauma and can find healing.
4. Survivors of trauma have the right to professional, ethical, and healthy treatment and support.
5. Past trauma is not an excuse to traumatize others.
6. Adult survivors of abusive trauma have the right to receive healthy care, appropriate touch and hugs, which may have been missed out on as a child, without sexual overtones.
7. Trauma survivors have the right to say no.
8. Survivors have the right to have a safe and supportive environment to recover in.
9. Survivors have the right to speak their own opinions and the responsibility to respect the opinions of others.
10. Survivors have the right to be listened to determine the best course of action for their lives.
11. Survivors have the right to agree or disagree and the responsibility to allow others to do the same.
12. Survivors have the right to be part of the decision making process and the responsibility to be accountable for those decisions chosen.
13. Survivors are not alone, even when it feels that is true. God loves survivors!
